PROJECTS

Brochure Sample Site | **https://github.com/Gurinderp/brochure-site** |
https://gbrochure-site.herokuapp.com/
- An example brochure site for a travel destination. The project showcases key locations for tourist travel with a separate category highlighting historical locations also popular among tourists. The project is focused on India.
- This React project uses HTML, CSS, and JavaScript for the front end.

Butter On Bread | **https://github.com/Gurinderp/butteronbread** |
https://butteronbread.herokuapp.com/
- An example product website. The website advertises several products with the main focus being "bread".
- This project features each product on its own page with a user friendly interface allowing for easy navigation.
- This React project uses HTML, CSS, and JavaScript for the front end.

Day Planner | https://github.com/Gurinderp/dayPlanner |
https://gurinderp.github.io/dayPlanner/
- The objective of this task was to create a simple planner used for daily activities. The project used local storage to store the data and moment.js to track the current time.
- Main responsibilities included UI design, creating the front end code, utilization of moment.js, and user data storage.
- This project used HTML, CSS, JavaScript, Moment.js, and Bootstrap.

Fitness Tracker | https://github.com/Gurinderp/fitness-tracker |
https://ftnesstracker.herokuapp.com/
- This project was created to track fitness goals and activities. The user is able to input the type of workout and duration to record the consistency and duration of exercises.
- Main responsibilities includedUI design, user data storage, and creation of viable exercises.
- This project used HTML, CSS, JavaScript, Node.js, MongoDB, Mongoose, and React.js

EXPERIENCE

Meat Clerk   2016– 2020
FoodsCo   Sacramento, CA
This role required the ability to work in groups or complete tasks alone while maintaining proper customer relations and communication to provide friendly and efficient service. Customer relations included processing customer orders and resolving customer concerns about products or services. Organization of the display and sales records were also imperative to meet company standards.

EDUCATION

Bootcamp Certificate: UC Davis, Sacramento, CA
A 24-week intensive program focused on building technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS. The program provided career ready skills for both front-end and back-end development.

Computer Science A.S.: Cosumnes River College, Sacramento, CA
Expected graduation: December 2021
